

The benefits at a glance:

- Reduced organizational workload, e.g. in the administration of article numbers, prices and product information (handling of more than 5,000 article numbers, 3,800 purchased articles, 8,000 semi-finished products, etc.)
- No maintenance of tools, equipment and machinery needed (handling of more than 1,200 tools)
- No tie-up of resources, e.g. personnel, production space and capacities, etc.
- No stock keeping of tools, machines or semi-finished products
- Comprehensive Know-how and technological expertise
